

GLASGOW WEEKLY TIMES, THURSDAY MORNING, OCTOBER 23, 1851.

Additional items by the America.

NEW YORK, Oct. 16, p. x.

The news from the Australian gold region, which continues to arrive, is confirmatory of previous reports as to the extent and riches of the mines.

Lord Londonderry has again addressed the President of the French Republic in reference to Abdel Kadir. The correspondence amounts to nothing practical.

London had been chiefly occupied with the election of civil officers.

Great excitement had been caused in Liverpool by the violent conduct of the County Court to Mr. Whitley editor of the Liverpool Journal, for a fancied insult. The Judge directed his immediate arrest without even issuing a warrant; but he was subsequently compelled to go through that formality. Mr. Whitley was fined and sentenced to two consecutive terms of imprisonment. The fines were paid by subscription. The imprisonment was commuted, and Mr. Whitley was released.

The steamer belonging to the American ship Columbia mutinied on Wednesday last. They knocked down the captain and mates, who were severely injured. The mutineers were convicted, fined and imprisoned.

The Queen of England was expected to visit Liverpool on the 9th inst. No business would be transacted in the Cotton market on the two days following her arrival there.

Advices from Madrid to the 21st state that the authorities of Cuba have proposed a plan to fortify the island, at the expense of \$40,000,000 reals. General Concha is of the opinion that this sum might be obtained by the saving proposed in the war department. A committee of general officers have approved General Concha's plan.

Commodore Fuller, of the Arctic expedition, landed at Deal, on Thursday, in the Hudson's Bay Company's ship Prince of Whales, after carrying on a most perilous search for Sir John Franklin in the Arctic sea, since 1849.

Destructive Fire.

GALENA, Oct. 16, p. m.

About half past two o'clock, this morning, a fire broke out in the rear of the Globe Hotel, on Main street, opposite the American Hotel. Before the engines could be put to work, the whole of that building was in flames.

The fire extended up and down the street among the old wooden tenements, and before it could be subdued, the following buildings were entirely destroyed.

On the north, from the starting point, Sberman & Langley's fancy store; Eberhart's tailor shop; a cigar store, occupied by Mr. Lampert; and the clothing store of Edward Solomon. On the south of the Globe, Brenizer's tin shop and dwelling house; Benedetto's clothing store, and F. Bergman's extensive cabinet ware rooms.

The stocks of each sufferer were fully covered by insurance.

The loss on the buildings will be small, as they were of little value.

The contents of J. O. Martin's tea store, Mrs. McComb's millinery shop, Mr. Boynton's jewelry shop, and Mr. James Connelly's shoe store, and Taggart & Stoll's fancy store, on the opposite side of the street were damaged by removal.

It is believed that from \$8 to \$10,000 will cover all loss.

New Orleans, October 14.

We have dates from Vera Cruz to the 4th inst. Governor Lether had arrived and proceeded to the capital.

Accounts from Mexico represent the government in great confusion; many ineffectual attempts had been made to appoint a new cabinet; the Treasury is at its lowest ebb and the government resources almost annihilated.

Accounts of the revolution in Northern Mexico had not yet reached the Capital.

Late accounts from the Rio Grande state that the Sheriff of San Antonio arrested two of Wild Cat's negroes, one of whom is Coffe John, a leader in the Florida war.

New Issue.

The Iron Mountain Company of St. Cencyville, have a new paper in the form of a draft, which is being introduced as currency in our market. We were shown yesterday one of the bills of the denomination of three dollars. It is dated Sept. 1st, 1851, and is drawn on the "Office American Iron Mountain Company," in favor of John G. Scott, to Messrs. P. Chouteau Jr., & Co.

It bears the signature of the President, Mr. James Harrison. The mechanical execution of the bill is good, but not altogether proof against successful imitation.

In the centre is a vignette with a locomotive under headway, and cars attached, steam vessel in the distance, &c. a medallion on the left, and a figure like that of Gen. Harrison on the right.—*St. Louis Republic*.

GOLD IN THE ROCKY MOUNTAINS.

Mr. Michael Singleton, who has come down the overland route from California, has shown us a few specimens of gold obtained by him in the bed of a small stream at the east side of the South Pass in the Rocky Mountains. This gold is of a pale yellow color and from its crystalline appearance, does not exhibit the evidence of having been subjected to heat or wear, as the gold found in California does. Mr. Singleton is fully impressed with the belief that the whole range of the Rocky Mountains contains auriferous beds, located in accordance with the already known geological formations of gold bearing countries.—*Dubuque Herald*.

Three women and three men have been arrested at New Albany, on a charge of counterfeiting. They had in their possession a lot of Indiana and Tennessee bank notes, and a machine and fixtures for coining half dollars.
